What can I create?

The screenshot shows the Canva website homepage. At the top, there is a navigation bar with the Canva logo, links for 'Blog', 'Support', and 'We're hiring!', and a user profile for 'Nicole Flothe'. Below this is a 'Start a new design' section with several template icons: 'Social media', 'Presentation', 'Poster', 'Facebook cover', 'Blog graphic', 'Pinterest' (with dimensions 735px x 1102px), and 'Document (A4)'. A 'Use custom dimensions' link is also present. Below the templates are three tabs: 'YOUR DESIGNS', 'EDITOR'S PICKS' (marked with a 'NEW' badge), and 'DESIGN TUTORIALS'. A teal notification box on the left reads: 'Introducing Editor's Picks. Up above is your new tab for design inspiration. You can use any of the designs in there as a starting point for your own creativity, just click on one you like and remix it. [Take a look!](#)'. To the right of the notification is a pink graphic with the text 'Love Canva?' and several hearts.
